ELITE HOCKEY DRILLS

FREE OFF-ICE PROGRAM · AGES 9–11

WEEK ONE

Five short sessions the Elite Hockey Drills app wrote for a 10-year-old with practice twice a week and a game on Saturday. No equipment.

5 SESSIONS | 20–32 MIN | NO EQUIPMENT | GAME SAT

COACH DAVID CIBOCH

M.Ed. Sport Science · Former UAE National Team Coach · Week 1 of the Elite Hockey Drills app program · v2 · November 2026

WEEK 1 OF THE SEASON

THE WEEK THE APP BUILT.

Not a sample. The real first week of the Elite Hockey Drills program, as the app writes it for this profile:

PLAYER	a 10-year-old, youth player, beginner level
SEASON	In season · game on Saturday · practice Tue + Thu
CAN TRAIN	Mon, Tue, Wed, Thu, Fri · about 30 min
EQUIPMENT	None (a backpack with books counts)

Different age, days, equipment or game night? The app rebuilds the week in a minute. This one fits everyone close to this profile.

THE WEEK

MON	**Speed & Movement Quality** SPEED & AGILITY	28 min
TUE	**Foundational Strength** STRENGTH — FULL BODY	32 min
WED	**Agility & Hockey Athleticism** SPEED & AGILITY	20 min
THU	**Games & Coordination** HOCKEY DRILLS	20 min
FRI	**Pre-Game Activation**	22 min
SAT	**Game Day**	
SUN	**Rest Day**	

- Hard sessions sit at least 48 hours before the game. The activation day is the day before.
- Tired, sore or sick? Skip the session. Nothing is lost.
- Parents: sneakers, a few metres of floor or grass, a phone to film. Jumps on grass or a gym floor, not tiles.

BEFORE DAY 1 · 10 MINUTES

SCORE YOUR PLAYER FIRST.

Three tests, a phone and a tape measure. The same three the app tracks, so week 4 can show what changed. Warm up first (Day 1's warm-up is perfect).

1 BROAD JUMP

Toes behind a line. Swing the arms, jump as far as you can, stick the landing on two feet. Measure from the line to the back of the nearest heel. Best of 3.

2 10 M SPRINT

Mark 10 metres. Start with one hand on the ground. A partner starts the stopwatch on the first movement and stops it when the chest crosses the line. Best of 3, full rest.

3 5-10-5 SHUTTLE

Three markers 4.6 m apart. Start at the middle, hand down. Sprint 5 to the right and touch the line, 10 to the left and touch, 5 back through the middle. Best of 3.

Why these three. Broad jump is the push-off, the sprint is the first three strides, the shuttle is a stop and a change of direction. Every shift uses all three.

THE SCORECARD

WHERE A PLAYER STANDS.

Find the row for the age and read across. Anything left of "Average" is where the biggest gains are waiting.

AGE 10–12

	AVERAGE	STRONG	ELITE
Broad jump boys	≥ 122 cm	≥ 152 cm	≥ 183 cm
Broad jump girls	≥ 102 cm	≥ 127 cm	≥ 152 cm
10 m sprint boys	≤ 2.50 s	≤ 2.30 s	≤ 2.10 s
10 m sprint girls	≤ 2.65 s	≤ 2.45 s	≤ 2.25 s
5-10-5 shuttle boys	≤ 5.65 s	≤ 5.25 s	≤ 4.95 s
5-10-5 shuttle girls	≤ 5.95 s	≤ 5.55 s	≤ 5.25 s

Week 1: jump _____ cm sprint _____ s shuttle _____ s

Week 4: jump _____ cm sprint _____ s shuttle _____ s

General-population norms the app uses (Topend Sports, FITNESSGRAM, Cartwright, NSCA; the app has a second, harder table for competitive players). In the app, log the three numbers under Testing on the Home screen; the week-4 retest shows the change.

DAY 1 · MONDAY · 28 MIN

SPEED & MOVEMENT QUALITY

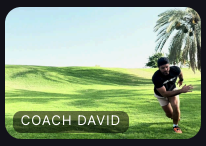

SPEED & AGILITY | 3 EXERCISES

Fast and fresh. Full rest between efforts. When a rep gets slow, that set is over.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
Spider Lunge with Rotation ▸	6 reps each side — move through the range
Wall Drive ▸	12 reps

BLOCK A · POWER

A LATERAL BOUND TO STICK

▶ Demo

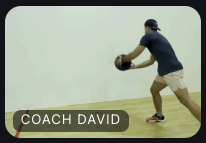

2 × 4 each side · 60 s rest

LANDING · stick every rep for 2 seconds

1. Start standing on one leg.
2. Push off sideways and land on the OTHER leg — short bound, only 30-40 cm.

On the ice: Youth regression of the standard lateral bound — shorter distance, longer landing pause.

BLOCK B · POWER

B ROTATIONAL THROW (BACKPACK OR BALL)

▶ Demo

2 × 6 each side · 45 s rest

ROTATIONAL POWER · shooting + edges

1. Stand sideways to a sturdy wall, 1-2 m away.
2. Hold a backpack (~2-3 kg) or basketball at your back hip.

On the ice: Trains the hip-to-hand rotational chain that drives every shot.

BLOCK C · SPEED

C 3-POINT START SPRINT

▶ Demo

6 × 10 m · 90 s rest

ACCELERATION · explosive starts, full recovery between

1. Place one hand on the floor in front of you. Opposite foot forward.
2. Back leg is extended — body in a low, aggressive forward lean.

On the ice: Trains explosive horizontal acceleration from a low position — mimics a faceoff or...

COOL-DOWN

Seated Hamstring Stretch ▸	45-60 sec
Calf Wall Stretch ▸	45-60 sec each side

DAY 2 · TUESDAY · 32 MIN

FOUNDATIONAL STRENGTH

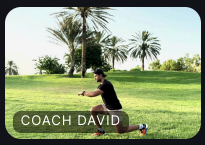

STRENGTH — FULL BODY | 5 EXERCISES

Slow on the way down, drive up. Leave two or three reps in the tank on every set.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
World's Greatest Stretch ▸	5 reps each side — slow, hold 2s at top
Glute Bridge ▸	12 reps

BLOCK A · STRENGTH

A SPLIT SQUAT

▶ Demo

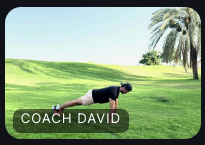

3 × 10-15 each leg · 45 s rest

SQUAT · chest up, knees over toes

1. Step one foot forward into a long lunge stance. Both feet remain on the floor.
2. Hold dumbbells at sides or bar on the back.

On the ice: Fundamental single-leg strength — great beginner alternative to Bulgarian

BLOCK B · STRENGTH

B PUSH-UP

▶ Demo

3 × 6-12 reps · 45 s rest

PUSH · straight line, tight core

1. Start in a high plank — hands slightly wider than shoulder-width.
2. Body is perfectly rigid — head to heel in a straight line.

On the ice: Builds pressing strength and core stability simultaneously

BLOCK C · STRENGTH

C INVERTED ROW

▶ Demo

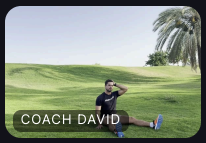

3 × 6-10 reps · 45 s rest

PULL · squeeze shoulder blades

1. Set up a bar or sturdy table at hip height.
2. Lie underneath, grab the bar with hands shoulder-width or slightly wider, palms facing away.

On the ice: Bodyweight horizontal pull — builds the upper-back strength that protects shoulders…

BLOCK D · PREHAB

D NECK ISOMETRIC — SIDE (LEFT)

▶ Demo

2 × 6 sec · 20 s rest

NECK · concussion-prevention isometric

1. Sit or stand tall.
2. Place left palm on the LEFT side of your head, just above the ear.

On the ice: Trains lateral cervical strength — resists side-impact hits and stabilises the head…

BLOCK E · PREHAB

E COPENHAGEN ADDUCTION (KNEE-BENT)

▶ Demo

2 × 20-30 sec hold each leg · 60 s rest

GROIN PROTECTION · Hölmich adductor strengthening

1. Lie on your side on the floor, top foot or shin resting on a low couch or bed.
2. Knee BENT (not straight — that's the regression).

On the ice: Builds the inner-thigh strength that protects against groin strain — the most common…

COOL-DOWN

Figure-4 Stretch ▸	45-60 sec each side
Kneeling Hip Flexor Stretch ▸	45-60 sec each side

DAY 3 · WEDNESDAY · 20 MIN

AGILITY & HOCKEY ATHLETICISM

SPEED & AGILITY | 3 EXERCISES

Fast and fresh. Full rest between efforts. When a rep gets slow, that set is over.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
90/90 Hip Switch ▸	6 reps each side — move through the range
B-Skip ▸	20 m — easy, not max effort

BLOCK A · SPEED

A FLOOR-LINE QUICK FEET

▶ Demo

3 × 15-25 sec · 30 s rest

LADDER · quick feet (1 pass)

1. Find any straight line on the floor — a tile edge, a piece of tape, a chalk mark, the seam between two floorboards.
2. Stand with the line directly in front of you.

On the ice: Trains the same foot-speed and ground-contact-time pattern as an agility ladder — the...

BLOCK B · SPEED

B 5-METRE SHUTTLE

▶ Demo

3 × 1 rep · 60 s rest

COD · sharp cuts, low hips

1. Find or mark two points roughly 5 m apart (door frame to door frame works; or step it out: 7 normal walking paces).
2. Sprint from one mark to the other, touch the floor with one hand, sprint back, touch again.

On the ice: Pure change-of-direction work — sprint, plant, sprint back.

BLOCK C · STRENGTH

C SPLIT SQUAT

▶ Demo

2 × 8 each leg · 30 s rest

GROIN · adductor strength

1. Step one foot forward into a long lunge stance. Both feet remain on the floor.
2. Hold dumbbells at sides or bar on the back.

On the ice: Fundamental single-leg strength — great beginner alternative to Bulgarian

COOL-DOWN

Seated Hamstring Stretch ▸	45-60 sec
Standing Quad Stretch ▸	45-60 sec each side

DAY 4 · THURSDAY · 20 MIN

GAMES & COORDINATION

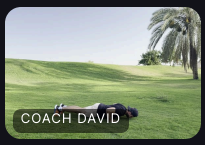

HOCKEY DRILLS | 4 EXERCISES

Coordination and challenges. Write the challenge scores down and beat them next week.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
Lateral Squat Shift ▸	6 reps each side — move through the range
A-Skip ▸	20 m — easy, not max effort

BLOCK A · STRENGTH

A PUSH-UP CHALLENGE (60S)

▶ Demo

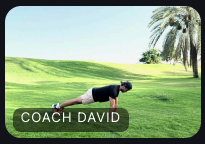

max reps · 60 s rest

AMRAP CHALLENGE · count your reps

1. Set a 60-second timer. Get into perfect push-up position.
2. Begin. Pace yourself — go hard but not so hard you blow up in 15 seconds.

On the ice: Game format = max effort, but FORM FIRST.

BLOCK B · STRENGTH

B PUSH-UP

▶ Demo

3 min · max reps

AMRAP CHALLENGE · max reps in 3 min

1. Start in a high plank — hands slightly wider than shoulder-width.
2. Body is perfectly rigid — head to heel in a straight line.

On the ice: Builds pressing strength and core stability simultaneously

BLOCK C · CORE

C BEAR CRAWL

▶ Demo

2 × 30 sec · 30 s rest

COORDINATION · cross-body patterns

1. Get on hands and toes — knees hovering 1-2 inches off the floor.
2. Hands directly under shoulders, back flat, hips low.

On the ice: Total-body coordination + anti-rotation core strength.

BLOCK D · CORE

D PLANK CHALLENGE — MAX HOLD

▶ Demo

max time · 60 s rest

HOLD CHALLENGE · count your seconds

1. Get into a perfect plank — forearms on the floor, elbows under shoulders, body in a straight line.
2. Glutes squeezed, core braced as if bracing for a punch.

On the ice: Long hold = core endurance + grit.

COOL-DOWN

Figure-4 Stretch ▸	45-60 sec each side
Hip / Groin Flow ▸	45-60 sec

DAY 5 · FRIDAY · 22 MIN

PRE-GAME ACTIVATION

1 EXERCISES

The day before the game. Nothing here should tire you. Wake the legs up, then stop.

WARM-UP

Light Jog / Dynamic Movement	3-4 min — easy, conversational pace (~120 BPM)
Ankle Dorsiflexion Drill ▸	6 reps each side — move THROUGH the range, do NOT hold
Groin Adductor Slide ▸	6 reps each side — move THROUGH the range, do NOT hold
Glute Bridge ▸	2 × 10 reps

MAIN

3-POINT START SPRINT

▶ Demo

3 × 10 m — explosive start, 80% effort · 90 s rest

1. Place one hand on the floor in front of you. Opposite foot forward.
2. Back leg is extended — body in a low, aggressive forward lean.

On the ice: Trains explosive horizontal acceleration from a low position — mimics a faceoff or...

COOL-DOWN

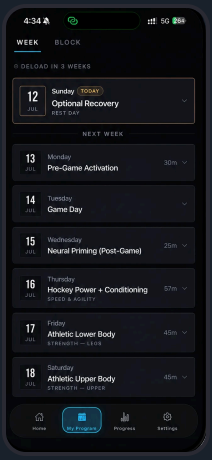

Diaphragmatic Breathing	3 min — 4s in, 4s hold, 4s out, 4s hold
Figure-4 Stretch ▸	20-30 sec each side — relaxed, NOT intense
Butterfly Stretch ▸	20-30 sec — relaxed, NOT intense

WHAT HAPPENS NEXT

WEEK 2 IS ALREADY WRITTEN.

This PDF is week 1 of 52. The app has the rest, built the same way, for your player:

- **Weeks 2–4: the same plan.** When the last set feels easy, the app moves the exercise up a level. Week 4: the three tests again.
- **Week 5: a new block.** New exercises, for example Spring Ankle Hold, Lunge Position Depth Drop, Single-Leg Drop and Stick.
- Sessions move around practices and games: hard days 48 hours out, activation the day before.
- A demo video and a coach's note for every exercise. Sets, rest and the timer on the phone.
- The three tests tracked, with the norms you just read.

THE ELITE HOCKEY DRILLS APP

Tell it your player's age, level, position, days and equipment. It writes the season.

Start the free week →

7 days free on the annual plan, then $99.90/year. Monthly $17.99, no free week. Cancel anytime. iOS and Android.

Parents: the trial starts from your App Store or Google Play account, so you stay in control of any subscription.

Prefer a one-time program? The 8-week programs on elitehockeydrills.com are $79 once, with a 30-day money-back guarantee.

Questions? Reply to the email this program came with. I read every one. — Coach David
