ELITE HOCKEY DRILLS

FREE OFF-ICE PROGRAM · AGES 19–39

WEEK ONE

Three 30-minute sessions the Elite Hockey Drills app wrote for a 28-year-old who plays on Thursday nights. No equipment.

3 SESSIONS | 27–32 MIN | NO EQUIPMENT | GAME THU

COACH DAVID CIBOCH

M.Ed. Sport Science · Former UAE National Team Coach · Week 1 of the Elite Hockey Drills app program · v2 · November 2026

WEEK 1 OF THE SEASON

THE WEEK THE APP BUILT.

Not a sample. The real first week of the Elite Hockey Drills program, as the app writes it for this profile:

PLAYER	a 28-year-old, recreational player, intermediate level
SEASON	In season · game on Thursday
CAN TRAIN	Mon, Tue, Sat · about 30 min
EQUIPMENT	None

Different age, days, equipment or game night? The app rebuilds the week in a minute. This one fits everyone close to this profile.

THE WEEK

MON	**Athletic Lower Body** STRENGTH — LEGS	30 min
TUE	**Athletic Upper Body** STRENGTH — UPPER	27 min
WED	**Rest Day**	
THU	**Game Day**	
FRI	**Rest Day**	
SAT	**Hockey Power + Conditioning** SPEED & AGILITY	32 min
SUN	**Rest Day**	

- Hard sessions sit at least 48 hours before the game. The activation day is the day before.
- Tired, sore or sick? Skip the session. Nothing is lost.
- Sneakers, a few metres of floor or grass, a phone for the timer. That is all.

BEFORE DAY 1 · 10 MINUTES

SCORE YOURSELF FIRST.

Three tests, a phone and a tape measure. The same three the app tracks, so week 4 can show what changed. Warm up first (Day 1's warm-up is perfect).

1 BROAD JUMP

Toes behind a line. Swing the arms, jump as far as you can, stick the landing on two feet. Measure from the line to the back of the nearest heel. Best of 3.

2 10 M SPRINT

Mark 10 metres. Start with one hand on the ground. A partner starts the stopwatch on the first movement and stops it when the chest crosses the line. Best of 3, full rest.

3 5-10-5 SHUTTLE

Three markers 4.6 m apart. Start at the middle, hand down. Sprint 5 to the right and touch the line, 10 to the left and touch, 5 back through the middle. Best of 3.

Why these three. Broad jump is the push-off, the sprint is the first three strides, the shuttle is a stop and a change of direction. Every shift uses all three.

THE SCORECARD

WHERE YOU STAND.

Find the row for the age and read across. Anything left of "Average" is where the biggest gains are waiting.

AGE 23–29

	AVERAGE	STRONG	ELITE
Broad jump men	≥ 191 cm	≥ 229 cm	≥ 267 cm
Broad jump women	≥ 152 cm	≥ 183 cm	≥ 213 cm
10 m sprint men	≤ 2.10 s	≤ 1.90 s	≤ 1.75 s
10 m sprint women	≤ 2.25 s	≤ 2.05 s	≤ 1.90 s
5-10-5 shuttle men	≤ 4.80 s	≤ 4.55 s	≤ 4.35 s
5-10-5 shuttle women	≤ 5.10 s	≤ 4.80 s	≤ 4.60 s

AGE 30–39

	AVERAGE	STRONG	ELITE
Broad jump men	≥ 173 cm	≥ 208 cm	≥ 244 cm
Broad jump women	≥ 137 cm	≥ 168 cm	≥ 198 cm
10 m sprint men	≤ 2.20 s	≤ 2.00 s	≤ 1.85 s
10 m sprint women	≤ 2.35 s	≤ 2.15 s	≤ 2.00 s
5-10-5 shuttle men	≤ 5.00 s	≤ 4.75 s	≤ 4.50 s
5-10-5 shuttle women	≤ 5.35 s	≤ 5.05 s	≤ 4.80 s

Week 1: jump _____ cm sprint _____ s shuttle _____ s

Week 4: jump _____ cm sprint _____ s shuttle _____ s

General-population norms the app uses (Topend Sports, FITNESSGRAM, Cartwright, NSCA; the app has a second, harder table for competitive players). In the app, log the three numbers under Testing on the Home screen; the week-4 retest shows the change.

DAY 1 · MONDAY · 30 MIN

ATHLETIC LOWER BODY

STRENGTH — LEGS | 6 EXERCISES

Slow on the way down, drive up. Leave two or three reps in the tank on every set.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
Scorpion Stretch ▸	6 reps each side — move through the range
Glute Bridge ▸	12 reps

ANKLE PREP

SPRING ANKLE HOLD

▶ Demo

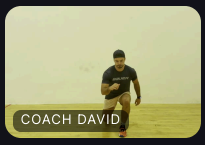

30 sec hold · 45 s rest

ANKLE PREP · A1 ISOMETRIC STABILITY

1. Rise onto the balls of both feet.
2. Hold for 30 seconds.

On the ice: Isometric tendon loading at the ankle — builds Achilles stiffness and tolerance.

ANKLE PREP

LUNGE POSITION DEPTH DROP

▶ Demo

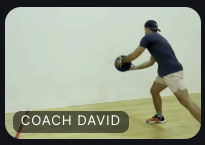

6 reps each side — 3s lower, full range · 60 s rest

ANKLE PREP · A2 ECCENTRIC CONTROL

1. Step into a lunge.
2. Lower your front knee forward over your toe — as far as ankle allows without heel lift.

On the ice: Eccentric ankle loading in a split stance mirrors the dorsiflexion demand of the...

BLOCK A · POWER

A ROTATIONAL THROW (BACKPACK OR BALL)

▶ Demo

3 × 8 each side · 45 s rest

PLANE BALANCE · hockey is played in all 3 planes; trains the plane this session was missing.

1. Stand sideways to a sturdy wall, 1-2 m away.
2. Hold a backpack (~2-3 kg) or basketball at your back hip.

On the ice: Trains the hip-to-hand rotational chain that drives every shot.

BLOCK B · STRENGTH

B ASSISTED PISTOL SQUAT

▶ Demo

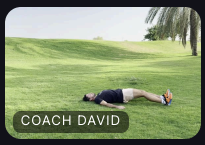

2 × 6-8 each leg · tempo 2-0-1 · 90 s rest

STRENGTH · drive into the ground

1. Stand on one leg, other leg reaching forward off the floor.
2. Scale it two ways: (1) hold a doorframe / pole / TRX with one hand for balance, or (2) sit back to a box or chair and stand straight back up without letting the floating foot touch down.

On the ice: The missing rung between a split squat and a full pistol — true single-leg squatting...

BLOCK C · STRENGTH

C HAMSTRING WALKOUT

▶ Demo

2 × 8 reps · tempo 2-0-1 · 75 s rest

HINGE · posterior chain (skating engine)

1. Lie on your back, knees bent, feet flat on the floor.
2. Drive hips up into a bridge position — same as a glute bridge.

On the ice: Eccentric hamstring control — major injury prevention for hockey sprinters

BLOCK D · CORE

D COPENHAGEN PLANK

▶ Demo

30 sec each side · 45 s rest

ANTI-ROTATION CORE · sport trunk stiffness

1. Lie on your side next to a bench. Place the top foot on the bench, lower leg hanging free.
2. Prop yourself up on the bottom elbow — forearm on the floor.

On the ice: Direct adductor isometric — the single best off-ice insurance against groin pulls, the...

COOL-DOWN

Figure-4 Stretch ▸	45-60 sec each side
Couch Stretch ▸	45-60 sec each side

DAY 2 · TUESDAY · 27 MIN

ATHLETIC UPPER BODY

STRENGTH — UPPER | 6 EXERCISES

Slow on the way down, drive up. Leave two or three reps in the tank on every set.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
Cat-Cow ▸	10 reps — slow and controlled
Shoulder Y-T-W ▸	10 reps
Wall Slide ▸	10 reps

BLOCK A · STRENGTH

A DECLINE PUSH-UP (FEET ELEVATED)

▶ Demo

2 × 6-10 reps · tempo 2-1-X · 75 s rest

PUSH · bilateral strength

1. Feet up on a box, chair, couch or step; hands under shoulders.
2. Rigid plank, lower the chest to the floor, full lockout.

On the ice: Feet-elevated pressing shifts more bodyweight onto the hands and biases the upper...

BLOCK B · STRENGTH

B FEET-ELEVATED INVERTED ROW

▶ Demo

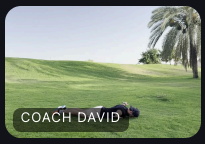

2 × 8-10 reps · tempo 2-1-X · 75 s rest

PULL · bilateral horizontal pull

1. Feet up on a box or chair so the body is horizontal under the bar.
2. Grab overhead, rigid from heels to head, pull chest to the bar, full squeeze, control the descent.

On the ice: Raising the feet to bar height puts the body horizontal and loads the upper back hard...

BLOCK C · STRENGTH

C1 REVERSE SNOW ANGEL

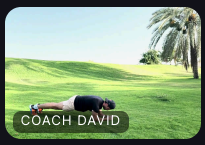

▶ Demo

12-15 reps · tempo 2-0-1 · 10 s rest

POSTERIOR SHOULDER · face pull / band (1:2 ratio)

1. Lie face down on the floor, forehead lightly resting on a towel.
2. Arms straight at your sides, palms down.

On the ice: Bodyweight posterior shoulder work — builds the upper-back endurance that counteracts...

C2 PLANK

▶ Demo

20-30 sec hold · 45 s rest

ISOMETRIC · push/plank hold

1. Start face down. Elbows under shoulders, forearms on the floor.
2. Rise onto the forearms and toes — body forms a straight line.

On the ice: Foundation of core stability — the base of all hockey movement

BLOCK D · CORE

D COPENHAGEN PLANK

▶ Demo

15-20 sec each side · 40 s rest

ADDUCTOR · Copenhagen (Hölmich protocol)

1. Lie on your side next to a bench. Place the top foot on the bench, lower leg hanging free.
2. Prop yourself up on the bottom elbow — forearm on the floor.

On the ice: Direct adductor isometric — the single best off-ice insurance against groin pulls, the...

BLOCK E · PREHAB

E NECK ISOMETRIC — EXTENSION

▶ Demo

15-20 sec hold · 30 s rest

NECK · contact tolerance

1. Sit or stand tall. Place both hands behind the head.
2. Press the head backward into the hands — maximum isometric force.

On the ice: Neck extension strength reduces whiplash injury risk during hits and falls.

COOL-DOWN

Doorway Chest Stretch	45-60 sec each side
Cross-Body Shoulder Stretch ▸	45-60 sec each side

DAY 3 · SATURDAY · 32 MIN

HOCKEY POWER + CONDITIONING

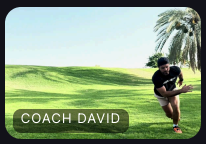

SPEED & AGILITY | 4 EXERCISES

Fast and fresh. Full rest between efforts. When a rep gets slow, that set is over.

WARM-UP

Light Jog / Dynamic Movement	2 min — easy, conversational pace
Spider Lunge with Rotation ▸	6 reps each side — move through the range
A-Skip ▸	20 m — easy, not max effort
Fast Feet / Ladder Equiv ▸	10 reps

BLOCK A · POWER

A LATERAL BOUND TO STICK

▶ Demo

4 each side · 60 s rest

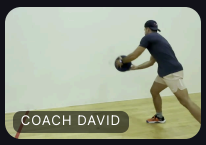

LATERAL PLYO · skating push

1. Start standing on one leg.
2. Push off sideways and land on the OTHER leg — short bound, only 30-40 cm.

On the ice: Youth regression of the standard lateral bound — shorter distance, longer landing pause.

Stick the landing 1 sec · soft knees · STOP if knee collapses inward

BLOCK B · POWER

B ROTATIONAL THROW (BACKPACK OR BALL)

▶ Demo

3 × 8 each side · 45 s rest

PLANE BALANCE · hockey is played in all 3 planes; trains the plane this session was missing.

1. Stand sideways to a sturdy wall, 1-2 m away.
2. Hold a backpack (~2-3 kg) or basketball at your back hip.

On the ice: Trains the hip-to-hand rotational chain that drives every shot.

BLOCK C · SPEED

C FALLING START SPRINT

▶ Demo

6 × 10 m · 90 s rest

LINEAR ACCEL · first-step speed

1. Stand tall, feet together, body completely upright.
2. Lean forward from the ankles — keep the body rigid like a plank, don't bend at the hips.

On the ice: Teaches optimal forward lean and explosive first step reaction — the single most...

Stick the landing 1 sec · soft knees · STOP if knee collapses inward

BLOCK D · CORE

D COPENHAGEN PLANK

▶ Demo

30 sec each side · 30 s rest

ANTI-ROTATION CORE

1. Lie on your side next to a bench. Place the top foot on the bench, lower leg hanging free.
2. Prop yourself up on the bottom elbow — forearm on the floor.

On the ice: Direct adductor isometric — the single best off-ice insurance against groin pulls, the...

COOL-DOWN

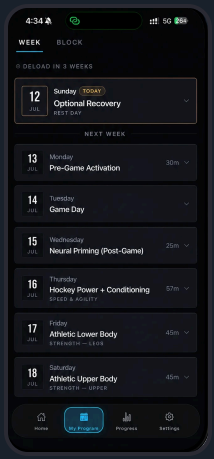

Couch Stretch ▸	45-60 sec each side
Calf Wall Stretch ▸	45-60 sec each side

WHAT HAPPENS NEXT

WEEK 2 IS ALREADY WRITTEN.

This PDF is week 1 of 52. The app has the rest, built the same way, for you:

- **Week 2 — Slower lowering. Week 3 — Slowest lowering + pause. Week 4 — Deload.** Then the retest.
- Every 4 weeks a new block with new exercises, so nothing goes stale.
- Sessions move around your games: hard days 48 hours out, activation the day before.
- A demo video and a coach's note for every exercise. Sets, rest and the timer on the phone.
- The three tests tracked, with the norms you just read.

THE ELITE HOCKEY DRILLS APP

Tell it your age, level, position, days and equipment. It writes the season.

Start the free week →

7 days free on the annual plan, then $99.90/year. Monthly $17.99, no free week. Cancel anytime. iOS and Android.

Prefer a one-time program? The 8-week programs on elitehockeydrills.com are $79 once, with a 30-day money-back guarantee.

Questions? Reply to the email this program came with. I read every one. — Coach David

WEEK 1 IS DONE.
51 TO GO.

The rest of the season is in the app.
